RECEIVER'S MONTHLY REPORT
BUENA VISTA WATER SYSTEM
BURNET COUNTY, TEXAS
For the Month Ending March 31, 2011

COMES NOW, JOHN M. FULTZ, duly appointed Receiver for Buena Vista Water System (the "Water System"), and files this Receiver's Monthly Report for the month ending March 31, 2011, and would show this Court the following:

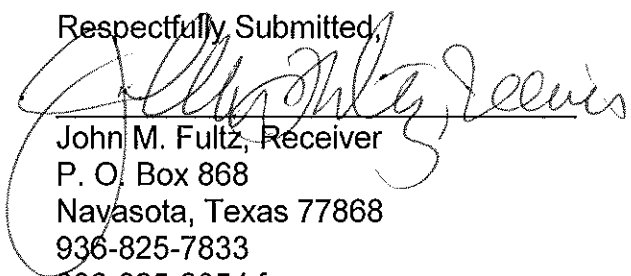

1. John M. Fultz was appointed Receiver of the Water System by Receivership Order signed by this Court on July 8, 2010 (the "Order").
2. The Water System is alleged to be owned by Kathie Bryant, individually, d/b/a Buena Vista Water System.
3. The Order authorized the Receiver to take possession and control of the Water System located in Burnet County, Texas.
4. The Receiver employed Gulf Utility Service, Inc. (the "Operator"), on July 12, 2010. The Operating Agreement between the Receiver and Gulf Utility Service, Inc., is available and on file in the Receiver's office. The Operator's license and resume of Terry Taylor, President, is available and on file in the Receiver's office.
5. The Receiver operates the Water System through the Operator. The Operator has maintained the Water System, performed monthly maintenance of the Water System, filed the appropriate monthly water reports, read the meters, billed the customers, collected and deposited the funds received in payment, and prepared checks for payment of the monthly bills and returned the same to the Receiver.
6. The Receiver reviewed the Operator's Buena Vista Water System's Systems Totals Report, Profit & Loss Report, Balance Sheet and A/P Aging Detail for March 2010. Copies of which are attached.

7. During the month of March, the Receiver continued to maintain communication via email and telephone with Michael Wortham, President of the Buena Vista Property Owners Association (Buena Vista POA”).
8. The Receiver confirmed through the Operator that the plant at the Water System was running well and that repairs continue to be made on an as needed basis to provide the continuous and adequate supply of water to the customers of the Water System.
9. The Receiver has disbursed funds to the Operator to reimburse for travel expenses incurred and for operations and management for the months of July and August, 2010. No funds have been disbursed to the Operator for management and operations in the Water System for the months of September, October, November, and December, 2010, and none for January and February, 2011, due to insufficient funds. The Operator has thus far shouldered the financial burden of improvements to the Water System to bring the Water System into compliance and to provide adequate and continuous water supply to the customers.
10. The Receiver took the following actions during the reporting month:
 - a. On March 5, 2011, the Receiver attended the annual Buena Vista POA meeting held at 8301 W. RR 1431 in Buchanan Dam. The Receiver discussed the status of the Water System and future plans for the receivership.
 - b. On March 10, 2011, the Receiver received the report from the Operator that a loss of pressure occurred in the Water System and the customers were without water for several hours.
 - c. On March 11, 2011, the Receiver was informed that the operators located a leak that needed repair. The system was shut down during the repair. The water was restored after approximately 6 hours once the leak was repaired. The Operator delivered a Boil Water Notification to all Customers. Corrective action was taken and testing results were provided to TCEQ, a copy of which Notice is attached hereto. Notification was also provided by utilizing an automated phone system and locally posted notices. A true and correct copy of the Boil Water Notification is attached
 - d. On March 12, 2011, the Receiver forwarded to Mike Wortham, President of the Buena Vista POA, the spreadsheet for the Receiver’s request for the proposed temporary rate increase, and a copy of the proposed new rates.
 - e. On March 14, 2011, the Receiver forwarded to TCEQ the Receiver’s request for the proposed temporary rate increase, a copy of the proposed Customer Notice of Temporary Rate Increase and a copy of the proposed new rates.

- f. On March 14, 2011, the Receiver was notified by Sandra Valdez of the Lower Colorado River Authority ("LCRA") that the raw water meter at the plant did not register any usage for the prior month. The Receiver forwarded the information to the Operator and was advised that the meter was replaced on March 11, 2011. Pumpage through the finished water meter will be provided to LCRA.
 - g. On March 15, 2011, the Receiver forwarded to Elsie Pascua of TCEQ the Receiver's the proposed Customer Notice of Temporary Rate Increase explaining the new rates. The Notice was forwarded to the Operator to be mailed to all customers of the Water System.
 - h. On March 16, 2011, the Receiver issued a Boil Water Rescind Notice to rescind the March 11, 2010, Boil Water Notification to the Customers. A true and correct copy of the Rescind Notice is attached hereto.
 - i. On March 21, 2011, the Receiver forwarded correspondence to Jennifer Fritihoff, Accounts Manager with the Texas Department of State Health Services, with a copy of the check in payment in full of all delinquent balances owed by Kathie Bryant at the appointment of the Receiver.
 - j. On March 22, 2011, the Receiver forwarded the Affidavit of Delivery of Notice to Customers of a Public Water System regarding the Temporary Rate Increase, a copy of which Affidavit and Notice is attached hereto.
 - k. On or about March 31, 2011, the Receiver reviewed the Analysis Reports for trihalomethanes, all minerals, semivolatiles organic, and pesticides. The results were forwarded to the Operator.
11. The Operator performed the tasks shown on the attached work orders for the reporting month.
12. The Receiver will continue to operate the System through the Operator.

This concludes the Receiver's Monthly Report for the month ending March 31, 2011.

Respectfully Submitted,

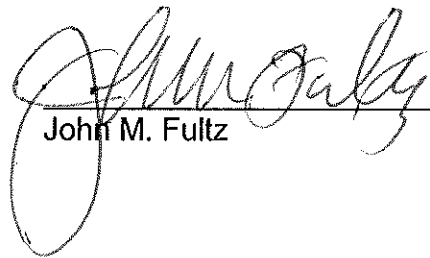

John M. Fultz, Receiver

Certificate of Service

I, John M. Fultz, Receiver, certify that a copy of the foregoing Receiver's Monthly Report for the month of March, 2011, for the Buena Vista Water System, was forwarded via email on the 18th day of April, 2011, and again on the 12th day of July, 2011, to include additional attachments, to the following:

Mr. George Thomas "Tom" Bohl, Assistant Attorney General
Mr. Terence Webb, Receivership Coordinator
Mr. Keith Kebodeaux, Attorney for Kathy Bryant
Mr. Roger Borgelt, Attorney for the Buena Vista Property Owners Association

John M. Fultz

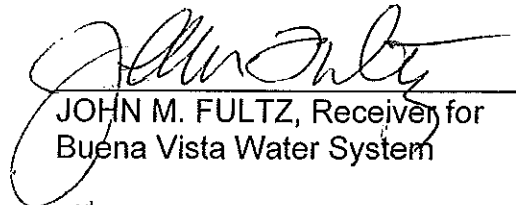

**AFFIDAVIT OF DELIVERY OF NOTICE TO CUSTOMERS
OF A PUBLIC WATER SYSTEM**

STATE OF TEXAS §

COUNTY OF GRIMES §

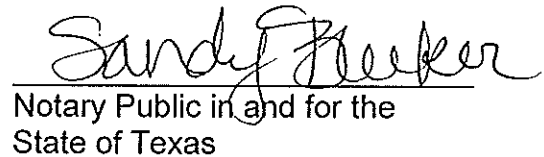

I, JOHN M. FULTZ, being duly sworn, file the **NOTICE OF TEMPORARY RATE INCREASE** as Receiver for the **Buena Vista Water System** receivership; that in such capacity, I am qualified and authorized to file and verify such NOTICE; and that all statements made and matters set forth herein are true and correct.

I further represent that a true and correct copy of the attached NOTICE was provided by 1st Class Mail to each customer or other affected party of the Buena Vista Water System on or about March 16, 2011.

JOHN M. FULTZ, Receiver for
Buena Vista Water System

Subscribed and sworn to before me this the 22nd day of March, 2011, to certify which witness my hand and seal of office.

Notary Public in and for the
State of Texas

TO: All Customers of Buena Vista Water System

RE: Notice of Temporary Rate Increase

Dear Customers:

As you are aware, I have been appointed as Receiver of Buena Vista Water System (the "Water System"). We have been working with Gulf Utility Service, Inc., the Operator, and the Texas Commission on Environmental Quality to analyze the operational needs for the Water System and have created a budget for the operation of the Water System and determined that a temporary rate increase is necessary to provide you, the customer, with water service that is adequate and continuous and to meet the anticipated expenses in the operation of the Water System.

We have taken into account, as best we can, the need to provide adequate service, the customers' ability to pay, the possible regionalization of the water plant, and other factors. We are concerned about the effects on all customers and have worked hard to reduce the charges to be made during the time the receivership will be in effect. We sincerely hope that you the customer will understand and will work with us to see that the level of service that you are currently receiving can be sustained. The operation of the Water System is dependent upon its customers, and we know that the rates set forth on the attached below will work a hardship on many. So long as our occasional users remain connected to the Water System, this burden will be borne by all. As each person considers the effect on his or her own situation, we hope that you will consider remaining on the Water System during this time to help spread this burden among all current customers.

The temporary rate increase takes effect March 1, 2011, and will be applied to usage in March on your April bill, include a minimum monthly charge, gallonage charge, and line items charges for operations and maintenance, receiver's fee, and debt repayment as follows:

Section 1.01 –Temporary rates

Meter Size	Monthly Minimum Charge	Gallonage Charge
5/8" or 3/4"	\$24.72 (Includes 0 gallons)	\$4.00 per 1000 gallons

Contract Operations and Maintains Line Item: \$18.00 per month per connection for each water customer until the receivership ends.

BUENA VISTA WATER SYSTEM CUSTOMERS

Notice of Temporary Rate Increase

March 16, 2011

Page 2 of 2

Receivership Fee Line Item: \$12.25 per month per connection for each water customer until the receivership ends.

Debt Repayment Line Item: An amount equal to the computation of \$3382.69 divided by the Active Number of customers on a monthly basis (Example $\$3382.69 \div 125$ Customers = \$27.06 per month per connection).

The temporary rates will remain in effect for the duration of the receivership of the nonfunctioning system.

We hope that you will understand the situation we are all in and will continue to maintain your service with the Water System. We will strive to continue the level of the water service to that which we have been able to achieve to date, and with your help we can do so.

Thank you very much for your consideration.

Sincerely,

John M. Fultz, Temporary Manager

**GULF UTILITY
SERVICE, INC.**

PO Box 1629, Spring, TX 77383

March 16, 2011

Attention: Thunderbird Bay (Harbor Point Subdivision) Water System Customers

Boil Water Rescind Notice

On 3/10/2011 the Texas Commission on Environmental Quality (TCEQ) required **Thunderbird Bay (Harbor Point Subdivision) Water System, PWS ID 0250031** to issue a Boil Water Notice (BWN) to inform our customers that due to the presence of contaminants or an interruption in service, water from our system must be boiled prior to consumption.

Our system has taken the necessary corrective actions to restore adequate pressure, disinfectant levels, and/or bacteriological quality and has provided TCEQ with testing results that indicate that the water no longer requires boiling.

If you have questions, please contact Gulf Utility Service at 888-649-4433 or 281-355-1312.

Thank You,

Gulf Utility Service, Inc.

**GULF UTILITY
SERVICE, INC.**

March 11, 2011

Attention Thunderbird Bay (Harbor Point Subdivision) Water System Customers

Due to the recent loss in pressure a mandatory Boil Water Notice must be issued.

Boil Water Notification

Due to loss in pressure occurring on 3/10/2011, the Texas Commission on Environmental Quality (TCEQ) has required our public water system Thunderbird Bay (Harbor Point Subdivision) Water System, PWS ID 0250031, to notify all customers to boil their water prior to consumption.

To ensure destruction of all harmful bacteria and other microbes, water for drinking, cooking, and for making ice should be boiled and cooled prior to consumption. The water should be brought to a vigorous, rolling boil and then boiled for two minutes. In lieu of boiling, you may purchase bottled water or obtain water from some other suitable source.

When it is no longer necessary to boil the water, the water system officials will notify you that the water is safe for consumption. The rescind notice will be issued in the same manner as this Boil Water Notice.

If you have questions regarding this matter, you may contact Gulf Utility Service at 888-649-4433 or 281-355-1312. *If you would like to contact TCEQ, please call 512-239-4691*

We apologize in advance for any inconvenience. A Boil Water Rescind Notice will be issued once adequate pressure, disinfectant levels, and/or bacteriological quality and has provided TCEQ with testing results that indicate that the water no longer requires boiling.

Thank again,

Management

Gulf Utility Service, Inc.
